CryptoParty 2018

Mc and SRCT

About CC

- EST 2016, cybersecurity
- Started as a CTF club
  - Expanded as the main cyber club ended
- Hosts weekly talks with demos for an hour
- Visits competitions
- competitivecyber.club

About SRCT

- Est 2011, computer science and programming

- Part of Mozilla OSSN
  - Open Source Student Network
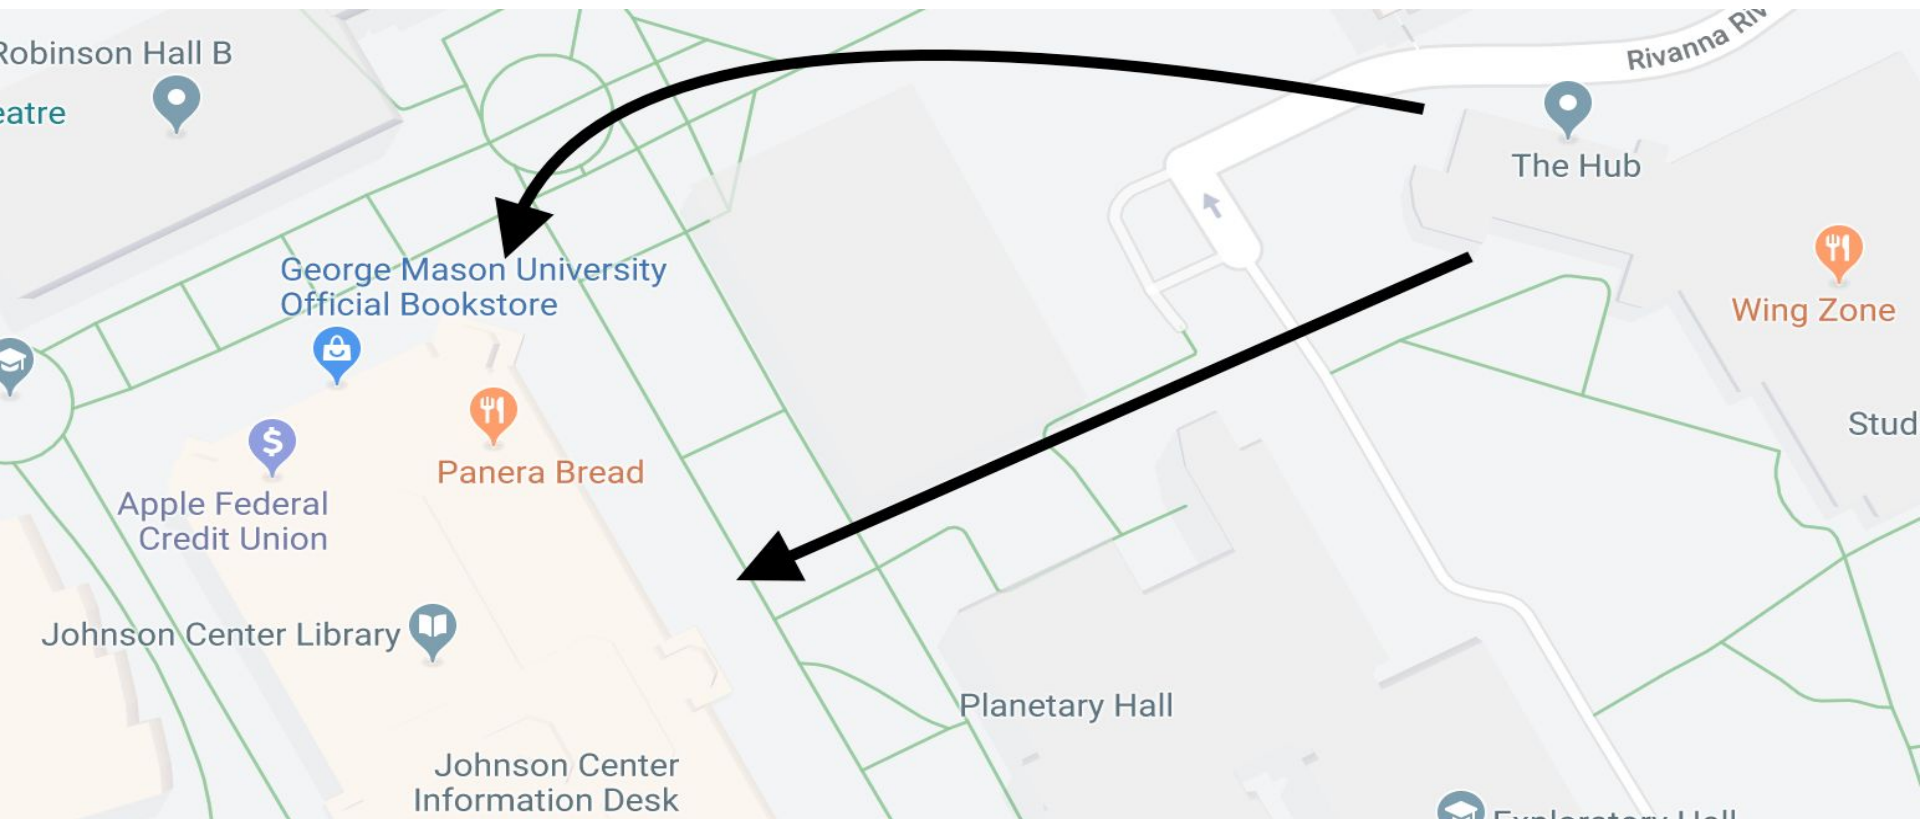

- Builds projects

- srct.gmu.edu

If you need anything…

- Note if you need anything we do not offer or it isn't downstairs, our student center is the JC
- Once registered CTF participants are allowed to leave and come back if they absolutely want to
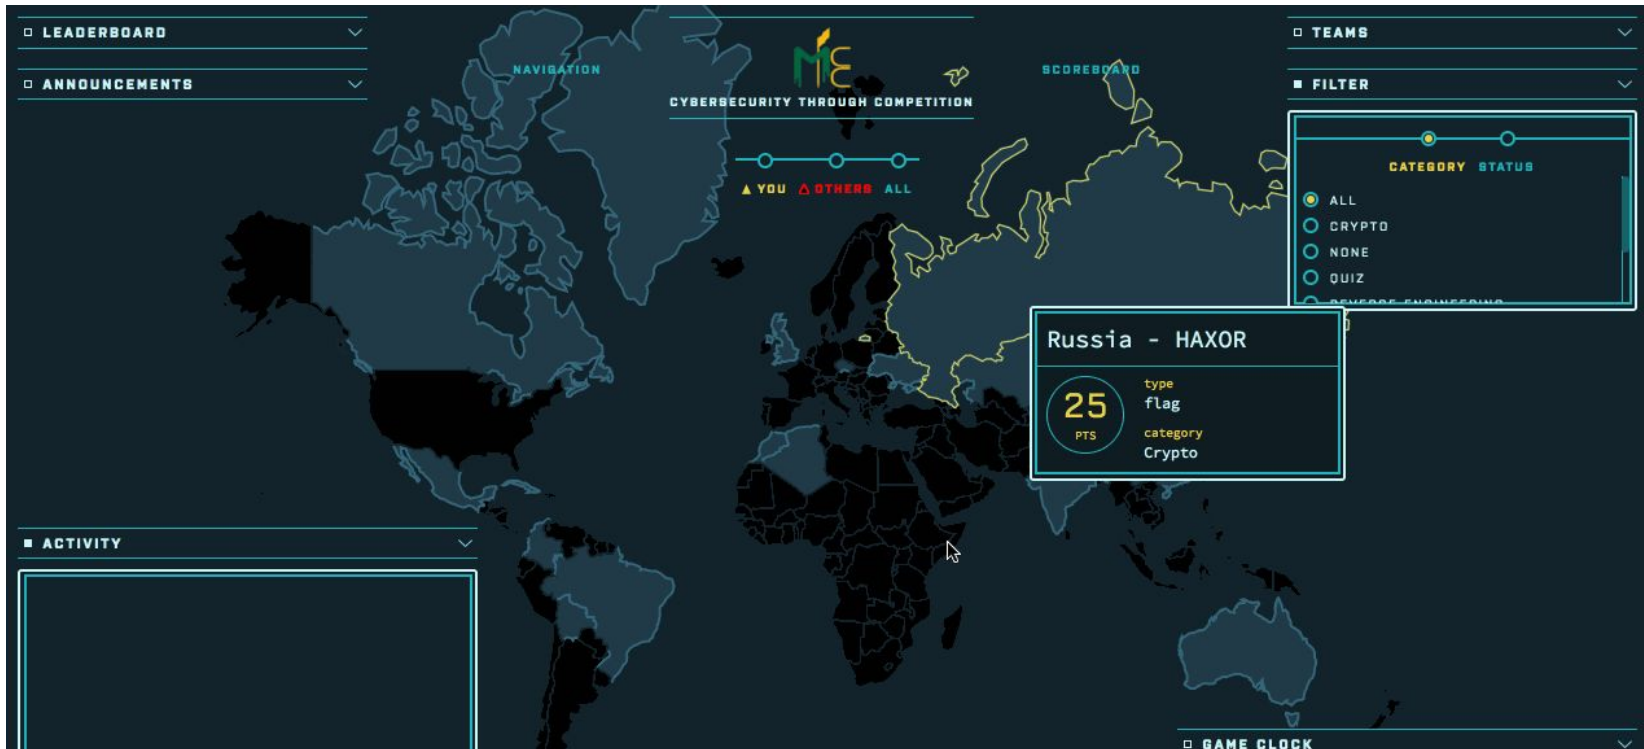

Event Rundown

- **Early stop - 5:30pm**
  - Probably before then, closing remarks are informal
- Most festivities formally start at 11:30am
  - Introduce yourselves
  - Get food
  - Make sure you're in the right event (CTF or workshop)
  - Get registered if CTF

CTF

- Do not attack workshop or general event infrastructure
- Decrement of 1 on almost all challenges
- Questions? Hit up **Paul Benoit**
- Categories

Workshops

- A number of people in this room know a lot
  - Mixture of CS and cyber
- Conversation-first event
- Fluid schedule
- Share experiences
- Questions? Hit up **Michael Bailey**
